

# Neurodiversity Staff Network

[hdft.equality@nhs.net](mailto:hdft.equality@nhs.net)

---

**The staff network group is affiliated with the  
Disability and Long-term conditions network.**

Employees who might be dyslexic, dyspraxic, have dyscalculia, autistic spectrum condition, ADHD, anxiety, depression or any other neurodiverse condition are welcome to join us. We will be chatting in a safe space about strategies for how we get by, what support works well or not and learning from the lived experiences of others. No pressure to speak about your condition and no one will ask you to.
